What school has pornographic material! Are you serious?? Parents should monitor what their child checks out of a public library

Do you support legislation that codifies parental rights in their children's education, such as the right to visit their child's learning environment, the right to inspect and review curriculum and lesson plans in their child's classes, and the authority to make decisions regarding masks and vaccines?

- Yes
- No
- Don't know

The State of Idaho sets those standards, and when all of us are in a community environment, we are morally obligated to protect each other from infectious diseases. Parents can remove their children from that community environment, not expect the rest of the community to oblige their selfishness
