Do you support legislation preventing the distribution of irreversible puberty blockers, cross-sex hormones, and sex reassignment surgery for minors?

- Yes  
 No  
 Don't know

I can think of no greater area of concern, as we continue to strive to protect children / minors from the irreversible effects of their decisions, where they lack the requisite knowledge and experience to come to informed and proper conclusions.

Do you support legislation making clear that the state of Idaho has a vested interest in protecting the life of an unborn child?

- Yes  
 No  
 Don't know

I firmly believe that one of the government's greatest responsibilities is to protect the lives of all citizens / people, especially those who need the most protection, the most vulnerable and least capable of providing for their own protection.

Do you support legislation removing the exceptions for rape and incest in Idaho's abortion restrictions?

- Yes  
 No  
 Don't know

As tragic as these scenarios present, there cannot be a compromise to the recognition of the rights of the unborn; we either protect the sanctity of all life or we run the risk of protecting none. I would support legislation to stiffen penalties for rape and incest, and to make adoption a less onerous process.

## 2022 IFPC CANDIDATE QUESTIONNAIRE

Do you support legislation that holds educators and school districts accountable for indoctrinating students with critical race theory and/or gender ideology?

- Yes  
 No  
 Don't know

Unfortunately, this problem did not start in the school system - the school system is merely the vehicle for instituting this nefarious cultural indoctrination, leveraged through years of monies taken from the federal government and those ever-present attached strings.

Do you support legislation that makes sexual education opt-in rather than opt-out?

- Yes  
 No  
 Don't know

As we realize that there is a coordinated attack being waged on our children, we need to give parents every opportunity to be involved and to make decisions in the best interests of their child. Opting-in further diminishes the chance of a mistake being made that a child is exposed to unwanted materials or lessons.

Do you support legislation that prohibits access to pornographic and obscene material for minor children in schools and public libraries?

- Yes  
 No  
 Don't know

I can think of no instance where children would need to be exposed to pornographic material, or where there would be a benefit in doing so. But this is just a small area of potential exposure - legislation should also be addressed that limits what a child can see on electronic devices, etc.

Do you support legislation that codifies parental rights in their children's education, such as the right to visit their child's learning environment, the right to inspect and review curriculum and lesson plans in their child's classes, and the authority to make decisions regarding masks and vaccines?

- Yes  
 No  
 Don't know

For those who are relegated to the public school system, I support the parents being the final arbiter of their child's learning, but realize that a system designed to be a one size fits all, there is little opportunity to expect each parent to be able to customize their child's experience. Health and safety decisions should always be in the parent's purview.

Do you support legislation that requires students and others to use the school bathroom and locker room consistent with their biological sex at birth?

- Yes  
 No  
 Don't know

It is getting much tougher to provide sense to the nonsensical, but this should be pretty clear cut - we should provide the protection in these situations to the greatest number, rather than making exceptions for one. Biological sex should determine which bathroom or shower should be used.

## 2022 IFPC CANDIDATE QUESTIONNAIRE

Do you support legislation that protects traditional, biblical marriage between one man and one woman?

- Yes
- No
- Don't know

As with protecting the sanctity of life, protecting the sanctity of marriage is of grave importance. The further our society erodes and diminishes these principles, the further the erosion of our society.

Do you support legislation that prohibits displays of indecency, such as drag queen exhibitions in public places like parks and libraries, when minors are present?

- Yes
- No
- Don't know

On the same lines of exposing children to pornographic materials in libraries, I see no benefit to having children exposed to drag queen exhibitions. This furtherance of degradation and indoctrination will have lasting negative effects on our children.

On a scale from 1 to 10, where 1 means not at all important and 10 means the most important, how important do you consider social issues to be in your role as an elected official?

8
