

PETITION: Ask State Legislators to Protect Innocent Children from Public Drag Exhibitions

According to the Idaho State Constitution, the state legislature carries the responsibility of enacting legislation that promotes morality, public virtue, and the purity of the home. Therefore, we call on our state lawmakers to implement legal reform that would prohibit drag exhibitions in public places where children are present.

Our concerns stem from the proliferation of public drag events that are now taking place in our communities. Perhaps most alarmingly, these aberrant sexual exhibitions are regularly marketed toward impressionable and vulnerable children. Like strip shows or adult magazines, drag culture is inherently sexualized. In fact, cross-dressing is classified as an erotic fetish, and drag performers often become sexually aroused when they imitate sexualized behaviors of the opposite sex in public.

Our children's innocence—and public virtue—must be protected. Please update state laws to ensure children are not exposed to sexual exhibitions like drag shows in public places.
